ONE DAY, I would like to live in a world where...

What is coming to your mind, when you think of the future, the society, the world that we are living in?

So much change is needed in so many areas of society and environment, and we leave the stage to you to show in a variety of ways what a better world, a better future, could look like.

We are inviting all artists and art enthusiasts to present their version of the future in any form of art.
